Dear Sir:

In the Office Action, mailed September 15, 2004, the Examiner required restriction to one patentably distinct species of invention. The Examiner identified six patentably distinct species, and indicated that claims 1 and 37 are generic. Applicants hereby elect Species II, corresponding to Fig. 5. The claims readable upon that species are claims 1-5, 7, 19, 21 and 37. Consideration of those claims is requested.

Upon allowance of generic claim 1, Applicants request reconsideration of the non-elected claims.

Respectfully submitted,

9/27/04
